

Welcome to My Village!!!!

From now on, the activity will be in complete silence. It is forbidden to speak, or even whisper and you are not allowed to write things down. There cannot be any kind of communication with words WRITTEN OR SPOKEN.

TASK 1

Your collective task will be to make a village in clay... Each of you should make at least one house (your house) but you should also be involved in the creation of the common parts/buildings of the village!

IMPORTANT INSTRUCTIONS:

- In your village you do not use "Square "shapes (the devil lives in the corners!!)
- Doors cannot be in front of each other (you respect each other's privacy)
- There should always be at least about 15 centimeter's between each house, but not more then 20! (Because of safety reasons...)
- The center of the village is the place to pray. This construction should be more or less at an equal distance of each house, so nobody should walk more or less then somebody else, to pray.
- Images of animals are considered as nice; however you highly respect nature and cannot use images of plants...

Some more things to take into consideration:

- Men can only work with their right hand, since the left hand is the defense hand and should always be ready to react in case of danger
- When you wish to communicate you have to raise your hand and point at the "holy place" before communicating (but never speak or write!!!)

TASK 1

Your collective task will be to make a village in clay... Each of you should make at least one house (your house) but you should also be involved in the creation of the common parts/buildings of the village!

IMPORTANT INSTRUCTIONS:

- In your village you do not use “round “ shapes (this brings bad luck)
- Doors have to be in front of each other as you like to greet each other and you are strongly connected to each other)
- There should never be more than about 15 centimeter’s between each house, but not less then 5! (because of safety reasons...)
- There is no centre of the village. The place to pray is in the north of the village. This construction is in the shape of a star, and no other house should be more to the north than this place...
- The moon is a holy symbol and should be involved in **ALL** constructions

Some more things to take into consideration:

- When you wish to communicate (but do not speak or write) you have to raise your hand in the air before to start to communicate – other wise it is very rude....
- Women and man can never touch each other in public
- Messages for the whole group can only be made when you hold a piece of clay between your two pointing fingers...

TASK 1

Your collective task will be to make a village in clay... Each of you should make at least one house (your house) but you should also be involved in the creation of the common parts/buildings of the village!

IMPORTANT INSTRUCTIONS:

- IN your village you do not use “flat roofs” – (you need air to breath) and constructions are always in the shape of an **L**. (This is a holy symbol...)
- Doors can only be in each others line.../ in front of each other, well in order...
- It is not important how far the houses are build from each other as long as there is a road from one to another...
- The most important place of the village is the water fountain... all roads should go to the fountain, water is the symbol of life... and should be integrated in all kinds of images or constructions

Some more things to take into consideration:

- Man can never communicate with other man without first touching the left hand of a women
- When you pray you make an image of a flower but you destroy it immediate , the village prays a lot, at least once every 5 minutes...
- When you have something to say (not talking no writing), which is important for the whole group you first need to run a circle around the village to ask for attention.

THE TASK

Your collective task will be to make a village in clay... Each of you should make at least one house (your house) but you should also be involved in the creation of the common parts/buildings of the village!

IMPORTANT INSTRUCTIONS:

- In your village there are only pyramid buildings. – you believe that it brings you good fortune and energy... other shapes are inferior
- The door is **always** on the north side of each building
- The house nearest to the north is the highest , and they become smaller the more you go to the south
- Streets are forbidden because they make you walk too much in line and limit your opportunities
- The image of the sun should be on every house, this is the symbol of energy, if there is no image of a sun on the house then this house can not be entered and is not considered as part of the community.

Some more things to take into consideration:

- Women are considered as the highest energy creatures (they give birth to new life) and for that reason all final decisions should be confirmed by a woman
- Before women respond in the communication (but you cannot speak or write) she first sits down on the floor, to be in touch with mother earth and to receive good energy...

TASK 2

The government of your country, where all villages are located have decided that it is time to make some cultural exchanges...

From each village two person each will go to the other villages.

The honored persons will be chosen by destiny... everyone in each village will pick a stick, the longest and shortest leave the village and go to one of the other villages

He/she has to take his/her house with them to the other village (government pays for the moving...) Please take in consideration all the instructions you received before when building your first (original) village.

TASK FOR THE VILLAGERS WHO STAY IN THE ORIGINAL VILLAGES:

The persons from the other villages arrive in your village and have the right to pick out a position. It is up to you to help them...

Try to integrate (without talking) the new persons in your community! Take in consideration your original instructions to make the village...

TASK FOR THE NEW ARRIVALS

You can choose any position in the village to put your house. (The government gave you the right to this...)

Your next step is to integrate into the community

Since the government wishes to develop a collective and uniform feeling of identity, they have organised a competition to create a national symbol.

Every village needs to construct a new national symbol and enter it into the competition. The government's department leading on this will choose a symbol for the whole country. This symbol needs to be made from clay of your houses (so you will need to adapt your houses after you gave your contribution)...

It should be a representation of how you all feel in your village...

Good luck!
